About Me

Over 3 years of experience in Customer Service, Sales and Account Management, the desire to continue learning and growing has always been present. My programming journey began in late 2020 when I was introduced to a tutorial online. As a natural competitor who's always been involved in sports, I felt a compelling urge to compete with myself, thus taking on the task to learn code. Today I'm still in competition as an aspiring React developer, and I continue living for this challenge.

Experience

Small Business Website
React, JavaScript, React-router, Vercel, Tailwind CSS, HTML
- A real-world website created for a local landscaping company using React-Router navigation and Vercel for site hosting
- Using JavaScript with React to enable page-up scrolling and dynamic changes within the navigation menu, allowing for a user-friendly experience
- This webpage has a heavy focus on HTML and Tailwind CSS styling, with the goal of providing responsive design, well laid out information, colours and images

Portfolio Website
React, JavaScript, Tailwind CSS, HTML
- Focused on using Tailwind CSS to style and design the webpage by using the unique class names provided by the Tailwind documentation
- Designed the page with a toggle theme feature and based on the users preference, this information saves locally
- Along with breakpoint animations, this portfolio was intended to be responsive, enabling changes based on different screen sizes

Weather App
React, API, JavaScript, HTML/SASS, NPM
- Leveraged node to create a more efficient use of a pagination system to display data from a location based API
- Built using React hooks, user input was gathered to search weather data from an open source API to display current and weekly weather reports
- Used axios to generate the data requests and created a units conversion feature to display this information as either metric or imperial without any additional search

Key Competencies

- HTML/CSS
- React
- JavaScript
- Material UI
- Tailwind CSS

- API Integration and git version control
- Effective communication ability
- Problem solving
- Proficient organizational skills
- Efficient with time-management

Education

Honours Bachelor of Applied Science in Kinesiology   September 2011 – June 2015
- University of Guelph-Humber

Diploma in Fitness and Health Promotion   September 2011 – June 2015
- University of Guelph-Humber
